

what lies behind us
and what lies before us
are small matters
compared to
what lies
within us

(emerson)

"As Robert Pino correctly teaches, it is not only the brilliance and practicality of your strategy, but also the purity of intent and the inner strength of your philosophy that creates true greatness."

*Mr. Jim Collins -
Author Good to Great & co-author Built to Last*

Think about it; what do all leaders have in common? How would it feel if you would know how to utilize Universal Laws and create growth? What happens if you see through the different layers of consciousness? This workshop is an experience that will enhance the core of leadership. This workshop is not for the faint of mind. The Psyche of the Leader is an exclusive 5-day workshop about the Art & Science of inspiring, guiding and influencing others for growth and well being. This unique program is designed for high level executives , business professionals and opinion leaders with an open mind and an eagerness to learn beyond ordinary reality.

You will learn how you can program your sub-conscious mind and your own psyche to enhance leadership and Mastery. Based on the characteristics of well known influencers of our world (past & present leaders) combined with the latest insights into the art of mental and sub-conscious language and quantum science you will be able to enhance your personal charisma and leadership talents and become a Master of your environment.
